

WHITE PAPER CARDANO LITE

WHITE PAPER

CARDANO LITE

1. Revolutionary project

Cardano lite is a project developed with security and liquidity, total supply of currency is 133 million.

2. Marketing

Development consists of three pillars,
Marketing: Marketing will be aggressive and intense, we will push and expand.

3. Development

Development will be done with BEP20 smart contract implementation, in which it will be possible to buy on PANCAKE SWAP, and the liquidity provider will be implemented as soon as possible.

4. BscScan Verified Contract

Our contract is already verified in BscScan without bugs or anything that can influence security, soon will be implemented the logo for use in pancake swap, and in trust, metamask, more in several decentralized portfolios.

5. Open source git hub

Draw on skills you have used in the past that have helped you to manage previous life's adversities. Use those skills to manage your emotions during the challenging time of this outbreak.

Three important pillars

1- Decentralization

Decentralization is one of the most important steps in a cryptocurrency.

3-Confidence

Project has to provide transparency, so our code is open to the public.

1-Safety

Security is to keep the project up and running well.

The background is a dark blue-grey gradient. It features several glowing teal geometric shapes: a large, complex, swirling pattern on the left; a network of interconnected points and lines on the right; and several smaller, star-like or crystalline structures scattered throughout. The text 'SMART CONTRACT' is centered in a white, sans-serif font.
